

Health Check Cloud Migration Assessment

A **Modis Health Check** provides independent assurance and challenges the status quo. Our actionable recommendations enable you to optimise cost, mitigate risk and improve quality and performance.

Assess your readiness to migrate your application portfolio to the cloud, review the current state, organisational readiness, business drivers and potential ROI for a cloud initiative.

Identify business and security risks with hard benefits including; cost reduction, improved scalability, reliability, business agility and continuity.

Recommend a tailored roadmap and transition plan to successfully migrate your application portfolio to the cloud, including, a security and risk assessment, a proposed high-level design, with options for transition to a managed service operation.

WEEK 1+2

- Workshops to determine current architecture
- Undertake security vulnerability assessment.

WEEK 3+4

- High-level design
- Costing estimates
- Proposed migration and transition plan
- Present findings and migration plan.

Why engage Modis?

Our clients tell us it's our vendor agnostic approach to Cloud that's unique. Backed with deep experience delivering large scale migration initiatives, Modis' rigour will ensure you don't deviate from best practice and provide the assurance to realise the many benefits of cloud services.

About Modis

At Modis, we exist to connect people and businesses to the technology, solutions and opportunities they need to thrive in a rapidly advancing world. We're here to help organisations and individuals collaborate, outperform and deliver better results than they ever could in isolation. In other words, to **#ConnectSmarter**
